

## Trayport GlobalVision Users Top 7,000

*Electronic trading provider expands sales team to support growing customer base*

London, 11 January 2006 – Trayport, a leading supplier of electronic trading systems, today announced it now has over 7,000 trading screens, spread over 32 clients and across 9 countries. Over the last year the number of GlobalVision screens rose by 40%. To support this success and to ensure further growth across different markets, the company is expanding its sales team. Anthony Bordin joins Trayport as Sales Manager, Tania Boustridge as Client Manager and Paul Constantinou as Sales and Partnership Manager.

“Over the last year we have moved into different markets, such as fixed income and credit derivatives, and crossed geographical boundaries as far as Asia and Canada”, says Elliott Piggott, Commercial Director at Trayport. “Expanding the team has been a natural next step to take. Anthony’s, Tania’s and Paul’s combined expertise has already had a positive impact on our growth into further markets and territories.”

Anthony Bordin is primarily responsible for building Trayport's business in Europe as Sales Manager, with his main focus on Trayport's GlobalVision Trading Gateway product. Anthony brings in-depth knowledge of software applications gained from over eight years in business development, project management and technical roles at international software companies, including Borland and SPSS, after having completed the EDS graduate programme in Australia.

Tania Boustridge joins Trayport as Client Manager from Thomson Financial where she was Account Director for Sales and Trading. With over 10 years of experience in client relationship positions in retail and corporate banking environments, Tania will primarily manage Trayport’s investment bank clients across Europe. Prior to Thomson Financial she held key account positions for Brown Brothers Harriman in their US Electronic Trading Division.

As Trayport’s new Sales and Partnership Manager, Paul Constantinou brings over 20 years experience in the global banking and financial technology sectors, with a background in treasury, capital markets and investment / asset management systems. At Trayport, Paul will be responsible for building the company’s exchange business and developing its partnership programme. Previously he held roles in sales, business development and consultancy services at SimCorp, AFA Systems and Bank of New York.

**About Trayport**

Trayport specialises in developing software designed to enable electronic trading and support for emerging and established trading communities. Its GlobalVision suite of products addresses today's market needs for real-time, multi-asset class electronic trading platforms for exchanges, brokers and traders, satisfying a range of requirements from real-time data distribution to multi-lateral trading systems.

GlobalVision is currently installed on over 7,000 trading screens worldwide. Founded in 1993, Trayport is privately held and has offices in London and Singapore. In 2005, the company was awarded second position in the Deloitte Technology Fast 50 for the London and Southern Region. More information is available at [www.trayport.com](http://www.trayport.com).
