## EMISSIONS WATCHLIST

Monitor all active emissions contracts across all marketplaces in the Joule Emissions Watchlist. A pre-made sheet can be found here:

Joule > Markets > Emissions

The LIVE button will filter the contract list to those contracts with orders or contracts that have traded within the day.

## DYNAMIC MARKET DEPTH

Don't miss viewing any orders using the market depth component which collects orders from all marketplaces into a single price stack, organised by price. This provides the full depth of order books comprised of all venues.

## TECHNICAL ANALYSIS

Analyse historical trends; apply indicators and strategies to historical data comprised of trades from all connected venues. Include Bollinger bands to monitor price breakouts.

### Trayport Joule offers more:

- Implied prices, including period aggregation and cross asset spreads, often provide the best market price.
- Execute volume faster using the Joule deal volume and powersweep tools.
- Quickly deal order directly from Watchlist and Market Depth windows using the Quick Deal buttons.
