Benefits

DIRECT CUSTOMER ACCESS

- Automate existing order requests from your customers, with a bespoke order management screen for customers to enter private buy or sell order requests which appear as notifications on your existing trading screen for management
- Maintain customer confidentiality, with each customer having private access to you, with no visibility pre- or post-trade between customers
- Manage a real time indicative curve to show customers your fair value, without the need for the customer to contact you for a quote, allowing you to reach more customers more efficiently and increase your flow
- Use Excel to easily import curves for low liquidity markets using Trayport's Market Making

STREAMLINE ORDER MANAGEMENT WORKFLOWS

- Improve visibility and management through a consolidated view of internal and customer order requests
- Manage a curve of quotes in a single click or match a curve against the best executable price in the wholesale market with market quoting tools

HIGHLY CUSTOMISABLE

- Optimised for Energy products, the platform allows bespoke hubs or commodities to be configured
- More advanced order types such as bespoke load shape contracts or Index based products can be configured to meet your existing commercial agreements

MINIMISE OPERATIONAL RISK

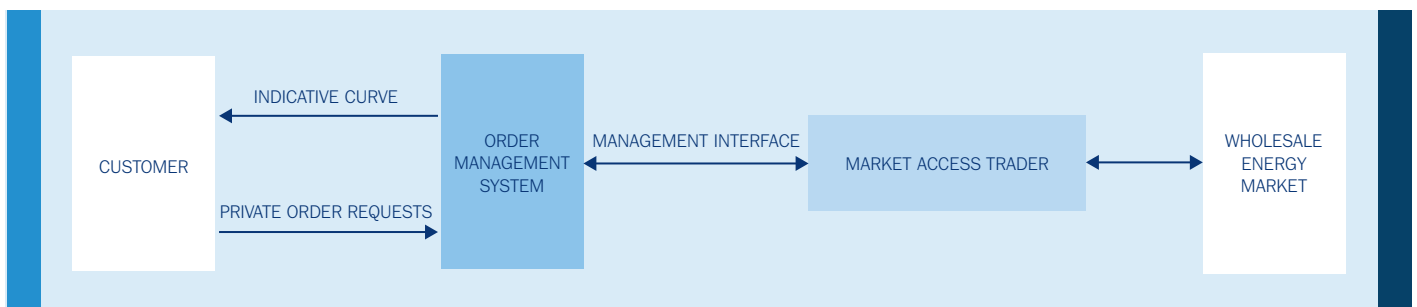

- Provide transparency and auditability to customer flows

REDUCE COSTS

- As part of the Trading Gateway platform, existing straight-through capturing allows real time risk, audit and scheduling using existing integration
- The use of a common platform reduces training and support costs

REMOTE ACCESS

- Web deployment and Read only mobile access provides remote users fast access to prices
